Stage teacher card

PowerBench's presenter. Keep it by the keyboard. The whole story is in the Stage Presenter Guide.

^ control **⌥ option** **⌘ command** + **S** opens Stage · + **D** draws or lets clicks through

Before class

1. PowerBench › Settings › Stage: switch it on.
2. Arrange the palette there; untick buttons you won't use.
3. Guests: keep **Preview** on; pick the stamps students may use.
4. Remote: Show the Code, scan it with your iPhone, Add to Home Screen.

While drawing

`D H`	Pen, highlighter (Shift: straight)
`N A X`	Line, arrow, box
`L`	Laser pointer: clicks pass through
`S`	Stamps (click the palette button again to choose)
`E`	Eraser: click a mark
`R O Y G B P K W`	Colours
`[ ]`	Thinner, thicker; smaller, bigger stamps
`Z`	Undo (a clear too)
`Delete`	Clear every mark
`Esc`	Stop drawing: clicks go to your apps

Marks that move

Turn on **Pin to Window** before drawing: marks stick to the window under them and move with it. Marks drawn without Pin stay on the glass while you scroll.

Record a lesson

1. **Lesson Tape › Record**. Pictures only, no sound.
2. **Add Chapter** at each new part.
3. **Stop**. Rename it in the list.

Replay and step in

- **Play**; Space pauses; 0.5× to 2×; chapter buttons jump.
- **Intervene** (I) freezes it: draw.
- **Resume** (R) writes it in as a new version. Version 1 never changes.
- **Export Movie…** to share, marks drawn in.

Guests

1. **Guests** on the palette shows a QR code. Same Wi-Fi only.
2. Click **Approve** for each name.
3. With Preview on, their marks wait: **Show** or **Discard**.
4. **Disconnect** one, **Disconnect Everyone**, or **End the Invite**.

Guests can draw, point and stamp. They can never type, click on your Mac or send pictures.

Remote

Start, Stop, Intervene, Resume, and the palette's buttons in the same order. Close Stage stays on the Mac.

If something's odd

- Can't click anything? Press **Esc** or ^⌥⌘D.
- Guest can't join? Same Wi-Fi; allow incoming connections if macOS asks.
- Recording asks for Screen Recording the first time: say yes.
